

Information for media – OP JAK project visibility

Thank you for your ongoing interest in the objectives and results of our project, which is implemented under the Jan Amos Komenský Operational Programme (OP JAK) and is co-funded by the European Union. As the project beneficiary, we are required by the programme rules to ensure information and visibility of the project's EU funding (i.e., to state EU co-funding and use the relevant visibility elements) in our communications. Below we therefore provide a brief note and official materials for using the visibility elements, and we kindly ask that—where feasible for your format—you use the suggested wording and/or the official logo-link. We respect editorial independence and understand that the final form of the output is decided by the editorial team.

Kind request

- Online article / print: please include a short funding statement such as “The project is co-funded by the European Union.” and/or add an image with the EU+MoEYS (MŠMT) logo-link.
- TV / video: ideally an end card or a short on-screen overlay with the EU+MoEYS (MŠMT) logo-link.
- Radio / audio: a brief spoken mention, e.g. “...as part of a project co-funded by the European Union...”.
